décor

Pink conjures up images of dusk in the desert or the pale pink of dawn. *It's such a positive colour and it reinforces the trend of going back to the earth and nature for our everyday inspiration.*

— Jani Augustyn-Goussard, *The Colour Collectors*

#3

Colour for a cause

A mirror reflection of the vibrant floral wallpaper on the opposite side of this bathroom is breathtakingly beautiful. Set against a pale pink wall and matched with a maple wood vanity and copper taps, this space in The Blush Studio at La Bella Vita Studios' self-catering accommodation in Paarl exudes luxury.

Interior designer Elsje Schonken of Schonken Interiors opted for pink (Duram Ceres Blush) in celebration of women and La Bella Vita Studios donates 3.5% of its annual profit made from renting out this accommodation to breast cancer support organisation Reach for Recovery. >>

Copper taps from Victorian Side Bathrooms;
masterpiece wallpaper from Eijffinger
